OF PARTICIPANTS OF THE INTERNATIONAL LITERARY FESTIVAL "STARS OVER DONBASS"

Bandits, armed with Nazi ideology, have been killing our compatriots for eight years, killing women, elderly people and children in Donbass.

For three years in a row, we organize an international literary forum "Stars over Donbass" in front-line Donetsk. We witness with our own eyes what the 21st century Nazism is - broken houses, destroyed neighborhoods, graves of Donbass residents who died because of Ukrainian punishers. We wipe away tears, looking at the names of the children in the Avenue of Angels.

Forget? Never.

Forgive? Impossible.

In this difficult time of trial, when an aggressive information war began, we cannot stand aside. There are millions of our readers with us, including those who are now carrying out their military duty with arms in their hands.

We support our army, which acts as clearly, professionally and selflessly as possible. We support our Supreme Commander-in-Chief, President of the Russian Federation Vladimir Vladimirovich Putin, who launched a special operation to denazify and demilitarize the state of Ukraine.

Retribution will surely come to those who allowed the militarization of Ukraine. Without it, its return to a normal, creative life is impossible. And we have no doubt that it will be done.
